

Research Studentships in Science College of National Chung Cheng University in Taiwan

STEM programme, Sciences, Technology, Environment, and mathematics

The Science College faculty members are interested in having new Indian PhD students join their research programs. There are no tuition fees and house fees for PhD degree-seeking students. In addition, *3/4 year* scholarships (600-1000USD per month) have been established for international Indian students who wish to enroll for a doctoral programme in the following fields:

- **Mathematics (DM)**
- **Earth and Environmental Sciences (EES)**
- **Physics (DP)**
- **Chemistry and Biochemistry (CBC)**
- **Biomedical Sciences (BS)**
- **Chemical Engineering (ChemE, Engineering College)**

The successful applicant will be the member of the Science College in CCU and will be supervised by one of professors in College. The exact research topic will be defined through discussion between student and supervisor in college.

Application Procedure

Please forward CV & covering letter to Dr. Jyoti Prakash Maity on jyoti_maity@yahoo.com and Mr. Chris ccuscwang@gmail.com

Eligibility

The studentship is available to international and Indian students around the world. The candidate possesses a degree that entitles him/her to be admitted to doctoral studies.

Apply online

<http://oia.ccu.edu.tw/ciaenglish/admissions.html>; Will be evaluated when submitted

National Chung Cheng University is a top 10 university in Taiwan and Top 200 in Asia. Science College with 92 faculty members holds the high reputation for its academic performance and education quality. We publish over 100 SCI/SSCI research papers and have been granted over 120 million NTD research funding very year. **The STEM is a project-based and English-teaching program.** The credit course is based on current industry trends and combines the advanced courses in physics, chemistry and biochemistry, biochemical, biomedical and environmental sciences. Welcome to our college of science as well as our University for study. Please visit our online application system to get information of academic programs, scholarship and start your application.

Welcome by Professor Chien-Yen Chen, Dean of Science College, He obtained D.Phil. from University of Oxford (Engineering Science, Matriculated at Oriel College in 2000).
