

Brochure of Postdoctoral Research Abroad Program

Ministry of Science and Technology, Republic of China (Taiwan)

Introduction

The Postdoctoral Research Abroad Program, sponsored by Ministry of Science and Technology (MOST), is intended to subsidize Taiwanese postdoctoral researchers to conduct research at an accredited educational institute abroad. The goal of this program is to encourage qualified individuals to gain research experience overseas, develop their global perspective, and strengthen international collaborations for a maximum of two years.

Eligibility

- The applicant must be a citizen of the Republic of China (Taiwan).
- The applicant must hold a Ph.D. degree, conferred in the last five years, by any accredited educational institute in Taiwan.

Award

- Each successful award recipient will receive 1,300,000 NT dollars (about 43,300 US dollars) each year for a maximum of two years, and this scholarship fund can be used at the recipient's discretion to contribute towards this research-related expenses. For example, the recipient may like to use the fund for airfares, living costs, insurance, etc.
- With a valid visa to travel to the designated country, the recipient is then required to sign a contract with the MOST in order to perform the proposed research project. However, other than performing the obligations stated in the contract, the recipient is under no obligation to either return to Taiwan or fulfill a residency requirement after finishing the research project. Furthermore, the recipient's acceptance of this grant shall not preclude the acceptance of any other foreign grants.
- The exact date for the award recipient to arrive at the designated institute is up to the

host to decide. This arrival date will be assigned to the starting date of this one year scholarship term in the contract with the MOST. The grantee is responsible for both the project and the grant managements and may have to pay the grant back to the MOST if the grantee breaks the contract.

- No institutes and advisors will receive any subsidies from the MOST.
- During the recipient's stay, all office space and related equipment for research shall be provided by the host institutes or advisors.

To Whom It May Concern:
c/o Dr. Gau-yu Wang.

It is a pleasure to notify that we have accepted **Dr. Gau-yu Wang** in the postdoctoral research program at Department of Physical Therapy, College of Health Science, Fantasy University with Professor Jill Smith as her advisor for the period of February 2018 through January 2019. We will provide her office space and access to a computer during her staying with us.

Sincerely yours,

A handwritten signature in black ink that reads "Jill Smith". The signature is fluid and cursive.
