Notes:

- I. If the recruited person is from mainland China, the applicant institution has the obligation to assist the recruited person to apply to the competent authority for residence (stay) in Taiwan. When the project grants are allocated,

the recruited person needs to provide one of the following certificated documents at the same time:

1. The permission letter for the people of the Mainland China area to engage with professional activities in accordance with the *Regulations Governing Permits for Mainland Chinese Residents Entering the Taiwan Area*.
 2. The permission letter for the people of the Mainland China area to hold Dependent Visa or Permanent Residency in accordance with the *Regulations Governing Permits for Mainland Chinese Residents Setting up Residence or Registered Permanent Residence in the Taiwan Area*.
- II. If the recruited person is from Hong Kong and Macau, the applicant institution has the obligation to assist the recruited person to apply to the competent authority for residence (stay) in Taiwan. When the project grants are allocated, the recruited person needs to provide either the employment authorization for the people of Hong Kong and Macau residents or the permission letter for the people of Hong Kong and Macau residents to hold Dependent Visa or Permanent Residency in Taiwan based on the *Regulations Governing Permits for Hong Kong and Macao Residents Entering the Taiwan Area and Setting up Residence or Registered Permanent Residence in R.O.C.*

2. Reason for recruitment

Please explain the following items in detail:

- (1) Purpose of the research project in which the recruited person will participate, and necessary skills and degree of project collaboration.
- (2) The recruited person's research items and workload, and degree of impact on the project.
- (3) Criteria for assessing the recruited person's performance while participating in this research project.
- (4) Please explain the foregoing items for each year in the case of multi-year projects.
- (5) **In the case of an application for continued funding, please fill out a "Recruitment of Visiting Science and Technology Personnel with MOST Funding Research work report form" for the recruited person's previous funding period and submit online.**

3. Accompanying measures to be taken by the applicant institution

- (1) Please summarize the accompanying measures to be taken by the applicant institution in conjunction with this recruitment case (such as other relevant research projects or work environment arrangements and provision of research resources and assistance, etc.).
- (2) Are there plans for hiring the recruited person as a formal employee of the applicant institution or transfer to another unit or to industry? (Please explain the feasibility of planned formal hiring or transfer, number of persons who may be hired or transferred, and annual estimates.)
- (3) What organizations or companies will the recruited person be able to transfer to? Will the applicant institution assist through the provision of training measures?

4. Recruited person's specific work content

Please explain the research work items for which the recruited person will be responsible and their content in a detailed proposal concerning that part of the project in which the recruited person will participate.

5. Recommended amount of research payment to the recruited person and relevant approval documents

- (1) Please provide the recommended research payment to the recruited person

Recommended amount	First year	Second year	Third year	Fourth year	Fifth year

The applicant institution shall propose a recommended amount based on its own criteria and reflecting a general assessment of the recruited person's education and experience, academic status, special skills and working experience, value of recent works, benefit of research or teaching to domestic academic science and technology, and degree of contribution.

- (2) Please explain approval principles and procedures for the recommended research payment amount (please attach the research payment standards for postdoctoral research fellows determined by the applicant institution)

6. The applicant must attach the following documents concerning the recruited person in accordance with regulations, and send to MOST online accompanying this application form:

- (1) The recruited person's doctoral degree certificate

(If the recruited postdoctoral research fellow will graduate this year, the following document may be provided first, and the individual's doctoral degree certificate can be provided to the applicant institution for checking when reporting in: (1) When the recruited person studied for

a doctoral degree overseas, a provisional academic transcript issued by the foreign university and indicating that the individual has passed his or her oral examination and dissertation review must be provided. (2) When the recruited person studied for a doctoral degree in the R.O.C., a verifying document reviewed and approved by the doctoral degree examining committee and printed by the department in question and a provisional academic transcript containing an oral examination conference record must be provided.)

(2) Documents to be provided when the recruited person has R&D substitute service status

(If the recruited postdoctoral research fellow has R&D substitute service status, a photocopy of the individual's Identification Certificate of Substitute Services Draftees must be attached; if an individual has not yet obtained an Identification Certificate of Substitute Services Draftees, a list of information concerning men eligible for military service and roster of persons accepted for R&D substitute service printed by the applicant institution must be attached; these items do not need to be provided when an individual does not have R&D substitute service status.)
